Age Group	Gender	Percentage of respondents who believe the U.S. should take action
18-29	Male	65%
	Female	85%
30-49	Male	75%
	Female	85%
50-69	Male	75%
	Female	85%
70+	Male	65%
	Female	75%

[illegible]

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses was significantly higher than the number of incorrect responses in all cases.

[illegible]

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses was significantly higher for the 10 trials condition than for the 5 trials condition. Error bars represent the standard error of the mean.

Abstract
